

Water=Life™

Saving communities one  drop at a time.

Water=Life celebrates Mother's Day by recognizing the courage, strength and hope of women in the developing world — mothers who want clean water for their children to drink and bathe with. Like all mothers, they dream of a happy and healthy future in which their children stay in school, play, grow, and flourish. Happy Mother's Day to all mothers for their countless acts of love and selflessness!

Make a difference.
