Update for friends and supporters Vol. 1, No. 7

“Nurturing the human spirit through the gift of clean water.”

A message from Elena

Water=Life has good news to report in 2020. **We accomplished Phase One of our African Initiative!** In January 2020, Water=Life Vice President Susan Riley traveled to Masaka, Uganda with 150 Sawyer SP180 Water Filter System kits and funding for the purchase of necessary buckets and jerry cans to accommodate 150 schools. Water=Life provided comprehensive training for school representatives (teachers and staff) to approximately 150 schools in the Diocese. Read all about the trip and view a delightful video at www.waterequalslife.org/african-initiative.

Water=Life is presently working toward plans for **Phase Two of our African Initiative** in Masaka, Uganda once the global pandemic is no longer a threat. In order to continue our work and establish new initiatives, we must rely on the generous donations and support of our friends, neighbors, and associates. The need for clean water is great. With your support, Water=Life will continue to identify areas in the world where we can **Make a Difference**.

Rev. Elena Delgado, *President, Water = Life*

Water=Life launches a new website in 2020: waterequalslife.org

Visit our new website featuring a user-friendly format and providing a complete overview of Water=Life and our humanitarian efforts in Kenya, Haiti and Uganda.

2020 Humanitarian Mission to Uganda: **PHASE ONE**

The W=L team traveled to Masaka, Uganda for two weeks in January 2020.

W=L provided training, including an overview of water filter, assembly, use and maintenance to 150 school representatives.

School children made their daily 1 to 2 mile walk to the water source to provide water for filter demonstration.

The biggest impact of the training comes when W=L Vice President Susan Riley is the first to drink the filtered water. (This always brought on applause!)

During the two week humanitarian trip, 150 schools received thorough training and received one water filter, bucket and a jerry can to take with them.

School children will benefit from the water filter in their schools. Phase Two will allow W=L to continue this mission to bring the gift of clean water to Uganda.
